FUND MANDATE

- The mandate of Proof's Alternative Income Fund is to invest primarily in alternative credit and direct investment opportunities with both higher return potential and lower expected volatility relative to opportunities in the traditional public markets.
- Permitted investment vehicles include private mortgages, asset backed securities, direct investments, bonds, preferred shares, and other cash-distributing securities.

INVESTMENT PHILOSOPHY

Access to Alternative Asset Classes

Proof offers families access to alternative asset classes that can offer both higher return potential and lower expected volatility relative to traditional public markets. Until now, we believe limitations on private wealth has prevented families from capturing the full benefit of private investments in alternative assets.

| 1 |

LESS-EFFICIENT MARKETS

Challenged access-to-capital can create special situations in which assets are worth more than companies. Proof looks for market inefficiencies that create such opportunities.

| 2 |

LIQUIDITY IS OVERPRICED

Quality, less-liquid long term investments can be very rewarding. Our funds focus on long term investments, but are still able to offer investors monthly liquidity.

| 3 |

HIGH-QUALITY INTERNAL DEAL FLOW

Proof leverages high quality internal deal flow focused on private, event-driven special situations.

| 4 |

REAL DIVERSIFICATION

Real diversification is best achieved by investments in tangible alternative assets that have low correlations to the public markets.
